

# Community Service Collaboration Protocol

Brant service agencies have committed to improving service coordination in Brant. To track this, the community developed a Service Collaboration Checklist as a reflective tool for staff to assist with ensuring the Brant Community Service Collaboration Protocol expectations are met. Agency staff are to return this tool to the Service Collaboration Working Group by May 14, 2010.

The challenge is on to improve service collaboration and track that this is occurring!

TOTAL RETURNED: 17

Note re 'Other': Twin Lakes Clinical Services: 7
